

To whom it may concern, I am a registered voter and a satellite radio subscriber. I pay for the services and I strongly feel that I should have the ability to have the variety and quality of programming they have to offer. I object to having the National Association of Broadcasters dictate my freedom to listen to "locally oriented" programming which includes traffic and weather broadcasting. I urge you to please reject the NAB's petition 04-160 and allow XM (satellite) radio to continue providing their great service.

Thank you.
